

SIOS Education High Availability

PROTECTING SYSTEMS FROM DOWNTIME AND DATA LOSS

High Availability for Educational Institutions

From school management systems, to CRMs, to student information systems, today's schools and colleges are more reliant on IT systems than ever. SIOS Technology makes high availability clustering and replication software that protect essential applications and databases from downtime and disasters – ensuring students and educators have access to the systems they need.

Meet Availability SLAs and RTO/RPOs with Ease

SIOS gives you the flexibility to build SAN and SANless clusters for Windows or Linux environments on physical servers, virtualized servers and in the cloud. You can use SIOS software to achieve high availability or disaster tolerance. Easily move Windows Server Failover Clustering to the cloud without disruption or easily build a Linux clustering environment with application-specific intelligence built-in. In the cloud, you can configure clusters across availability zones or regions for maximum HA/DR protection or create hybrid cloud or multicloud configurations to meet availability SLAs and RTO/RPOs with ease.

Systems, Databases, and ERPs Protected

SIOS products protect various applications and the databases they run on from downtime and data loss. Protected applications from leading providers including:

SQL Server, SAP, SAP S/4HANA, Oracle, SharePoint [Learn More](#)

Environments & Platforms Protected

Microsoft Azure Cloud, AWS EC2, Google Cloud Platform, Hybrid Cloud, VMware, Hyper-V, On-Premises [Learn More](#)

Operating Systems Protected

Windows, SUSE Linux, Red Hat [Learn More](#)
